Director, Central Intelligence Agency  
Langley, Virginia

ATTN:  Chief, Records  
Management Staff

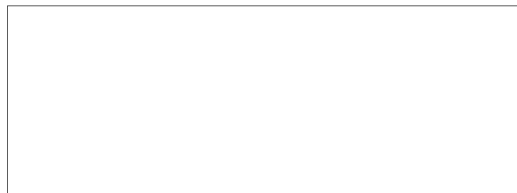

Dear Sir:

Forwarded herewith is a proposed agreement for an exchange of document services between the National Security Agency and the Central Intelligence Agency. Since such an exchange of older records has always been provided in the past, the proposal merely formalizes an agreed responsibility.

The National Security Agency plans to retain certain select CIA originated documents for an extended period of time. This arrangement should minimize the need for NSA to call upon CIA for reference service.

This correspondence may be declassified upon removal of the inclosure.

Sincerely,

Assistant Director, NSA  
for  
Management Services
